

## Biography

Sadasivam J. Kaushik

European Research Area  
Chair, Eco Aqua Institute,  
ULPGC (Honorary Director  
of Research, INRA, France)

Dr. Sadasivam (Sachi) Kaushik, was Director of Research in INRA, France. Has been involved in Fish Nutrition research since more than three decades and is the founder-director of Fish Nutrition Laboratory of INRA, joint-research units and also the Hydrobiology station of INRA. He is currently coordinating an EU FP7 project ARRAINA, dedicated towards the development of sustainable alternative aquaculture feeds tailored to the nutritional requirements of European farmed fish species, over their respective full life cycles, with reduced levels of fish meal (FM) and fish oil (FO) and to assess the long term physiological consequences by applying targeted predictive tools applicable to multiple species of European farmed fish. Deeply committed to aquaculture nutrition and involved in a large number of research projects, has a very strong

publication record and extensive knowledge of aquaculture issues around the world. He has also been closely involved with the aquaculture industry and is the current President of the European Aquaculture Society. Sachi Kaushik holds the ERA Chair position within the Ecoaqua project hosted by the University of Las Palmas de Gran Canaria.
